

CASTELLI
art in stone

All Castelli Marble products are hand carved and hand crafted from solid natural stone which have been selected from only the finest quarries. At our plant in Torreon and Cd Lerdo, Mexico, the boulders are then cut and carved into a collection of beautiful Castelli Marble products. Each piece will have some type of variation in characteristic markings and color from being quarried from the earth that only enhances the alluring charm of our products. Hand carved by artistic craftsmen with generations of experience working with natural stone, each product created is truly unique and one of a kind.

Wrought Iron

Looking for a unique place to design and create elegant handcrafted wrought iron products for your home with functional durability and style?

Whether you are an architect, designer, contractor, retailer or home owner, you will appreciate our artistically simple and creatively elaborate, custom designs of strength and distinction.

As specialists in the exquisite old world craft of iron forging, the artisans at Castelli Marble offer more than a product, we offer an heirloom quality piece. Influenced by the traditions of generations, our work reflects the legacy of European designs from Tuscany to modern renditions.
